

Morningstar's **SunSaver** is the world's leading small solar controller for both professional and consumer applications.

SunSaver's technology provides:

- · Exceptional Reliability
- · PWM Battery Charging
- · Consistent High Quality

The SunSaver's advanced design delivers outstanding performance and value. The SunSaver's low cost is made possible by Morningstar's unique approach to design and manufacturing:

- · Automated production
- ISO 9002 quality programs
- · Latest power electronic technologies
- · Latest control and logic technologies
- · High volume manufacturing

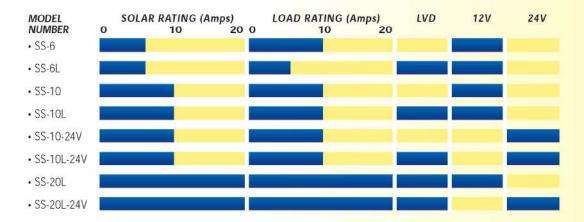

Features:

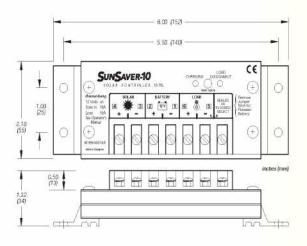

- Eight versions available (see back)
 12 and 24 volts
 6, 10 and 20 amps
- 100% solid state
- Series design (not shunt)
- True 0 to 100% PWM duty cycle
- Setpoint accuracy to 35 mV
- · Rated for 25% overloads
- Fully encapsulated in epoxy potting
- · Marine rated terminals / anodized case
- Temperature compensation
- Sealed / Flooded battery select
- · No need to derate
- · Parallel for 40 amps or more
- Green charging / Red LVD indicators

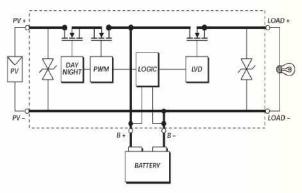

SUNSAVER™
